

## REMARKS

In response to the Restriction Requirement mailed July 27, 2007, Applicant elects Group I, claims 1-15. Such election is made without traverse.

Claim 1 has been amended to include the limitations of dependent claim 2. Support for such amendment may be found, e.g., in original claim 2 and at page 4, lines 11-26. As described therein, the movable piston may be provided with two spaced-apart seals, and a confining fluid may be supplied between the two seals such that the piston comprises means for applying a confining fluid to the side of the piston facing away from the coating fluid so as to simulate a continuous material web. Claim 2 has been amended to include further features of such an embodiment, supported by original dependent claim 8 and page 4, lines 14-17.

Claim 3 has been amended to state that the limiting means is adapted such that a confining fluid is applicable through it. An example is given on page 4, lines 14-17. The limiting means may be a movable piston with two spaced-apart seals as explained above, with the confining fluid being applied between the two seals, i.e. through the limiting means.

Respectfully submitted,

Attorney for Applicant(s)  
Registration No. 33,564

Andrew J. Anderson/vjr  
Rochester, NY 14650
